WSAB Website Re-Launch

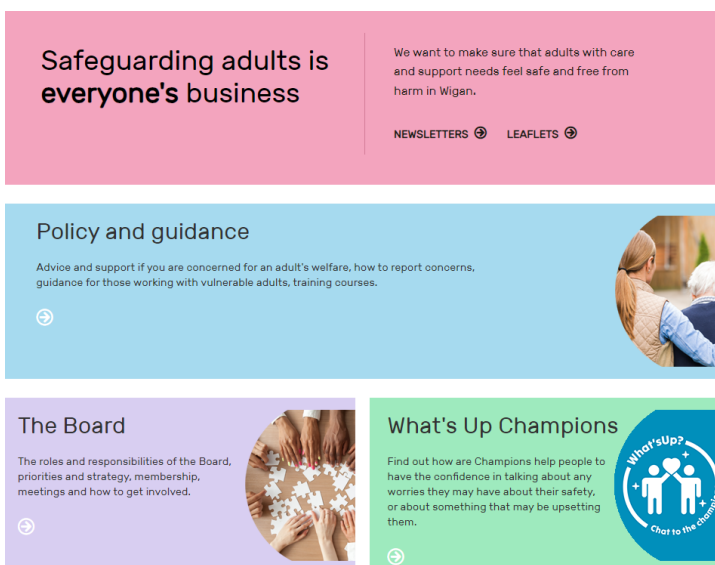

Wigan Safeguarding Adult's Board are excited to announce the Re-launch of their website. This has been an ongoing project over the last 12 months to re-structure and refresh the website to offer more accessible information for the public and professionals.

We are still working on the What'sUp Champion page which is currently being co-designed by the champions.

We encourage professionals to take a look and make yourselves familiar with where key policies and guidance sit so that you can utilise them in your practice.

Domestic Abuse MARAC Update

A MARAC (Multi Agency Risk Assessment Conference) is a meeting where information is shared about the highest risk domestic abuse cases, specifically those involving a risk of homicide or serious harm. During these meetings, representatives exchange relevant information and discuss strategies to enhance the safety of domestic abuse victims and their families, by creating an action plan. The voice of the victim at MARAC is represented by our Independent Domestic Violence Advisors (IDVA's).

In our borough, these meetings occur three times a week, with various agencies participating. The partnership continues to work diligently to support victims and families in our borough at the earliest possible opportunity to mitigate the devastating effects of domestic abuse. This includes our ongoing work with Wigan Borough Domestic Abuse Service & our dedicated helpline (01942 311365 Mon-Fri 8am-6pm), our drop-in services alongside our IDVA offer.

This year, the MARAC process has been reviewed to better align actions with identified risks, and collaboration with partners has led to a better shared understanding of risk and referral processes. This effort is complimented by the ongoing Multi-Agency Task and Co-ordination Group (MATAC) that continues to see significant reductions when working with repeat and serial perpetrators with an 81% reduction in Domestic Abuse incidents and crimes.

Thanks to these ongoing efforts, significant reductions have been observed. From the financial year 22/23 to 23/24, the total number of cases heard at MARAC dropped by 9% and repeat cases decreased by 18%.

We would like to thank our very own IDVA and Prevention Hub team's for their continued efforts tackling Domestic Abuse in our borough alongside the wider partnership response. These figures are showing that superb commitment and work is having a significant impact for our residents.

The partnership remains dedicated to tackling domestic abuse in our borough and providing early support to reduce risks for our families, this of course includes support for our staff.

For more information about domestic abuse and how to get support for yourself or someone you are concerned about, visit our dedicated webpage at <https://www.wigan.gov.uk/Resident/Crime-Emergencies/Domestic-abuse/>

Council staff can also access the Domestic Abuse staff policy & guidance by visiting our internal Hub page [Domestic abuse](#)

SafeLives defines a 'repeat' as ANY instance of abuse between the same victim and perpetrator(s), within 12 months of the last referral to Marac.

Caring for Older Adults - Spotting the Signs of Domestic Abuse. WSAB have commissioned a video which highlights how domestic abuse can affect older people and the signs to look out for. Please feel free to circulate the video across your teams.

Learning and Improvement Update

Multi-agency work continues in auditing areas of Adult Social Care and our partners to identify good practice and drive improvement.

The audit work undertaken is completed with practitioners and partners to ensure we have a holistic approach to safeguarding. One of the areas we have identified through the audit is knowledge regarding overriding consent due to escalating risk.

WSAB have produced a fact sheet on Consent which you can find [here](#) to support you in your practice. Did you know that the duty to undertake a Section 42 Enquiry is not dependent on the consent of the adult once it has been established that they are at risk of abuse. Similarly, there is a duty to assess their needs for care and support, even if they decline this, where they lack mental capacity or are at risk of abuse.

There are a number of circumstances where a practitioner can reasonably override such a decision, including the person lacks the mental capacity to make that decision. This must be properly explored and recorded in line with the Mental Capacity Act. Also in circumstances where there are other people who maybe at risk, including children.
